Goal Model

Goal Model

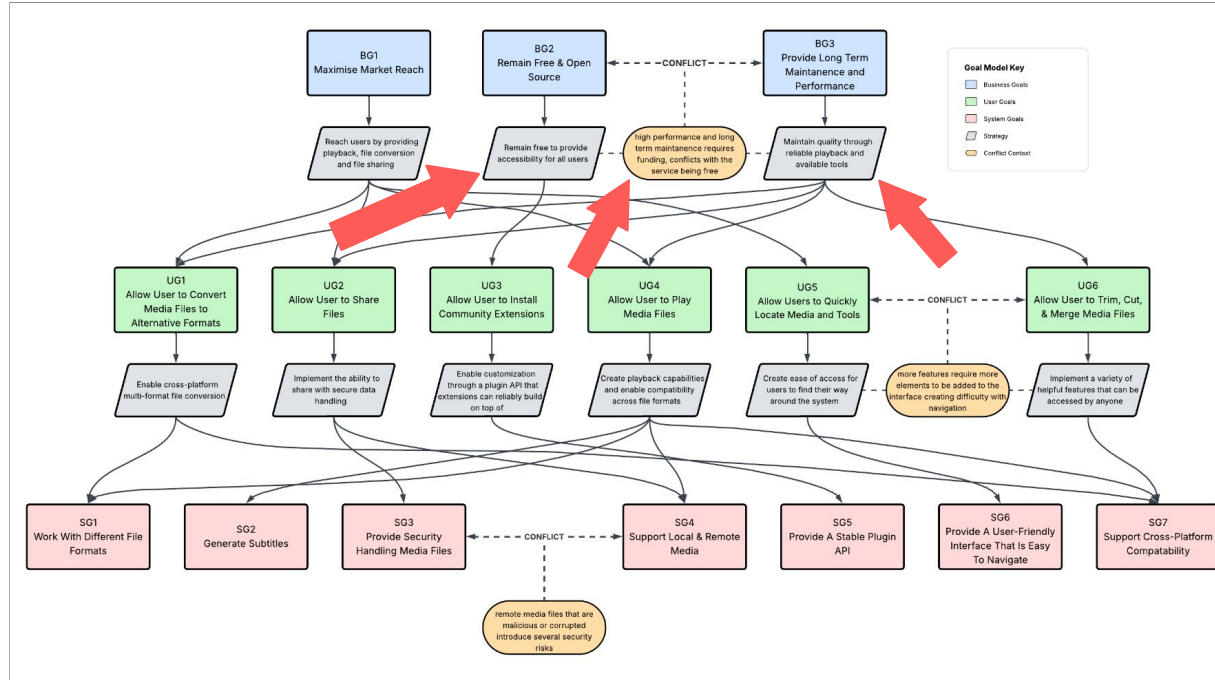

Goal Model

Relevant Requirements

- ❑ Remain free and open source
- ❑ Provide long term maintenance
- ❑ Maximise market reach
- ❑ Legal issues
- ❑ Support multiple platforms

REQUIREMENTS

Points of Clarification

Security

How will you ensure the protection of users security from malicious external media without compromising the user's autonomy to use VLC media however they want?

Brand Image

How will you progress the market reach of VLC? How will you allocate funds towards marketing? How will you justify any spending to the other stakeholders?

Funding

What if donors / sponsors stop supporting? How will you ensure continued financial support from community?

¶ End of the first part.

DCG

Self-Reflection on SRS Project

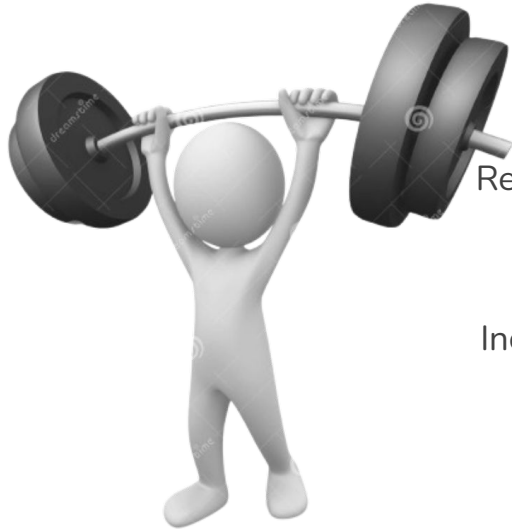

Strengths and Weaknesses

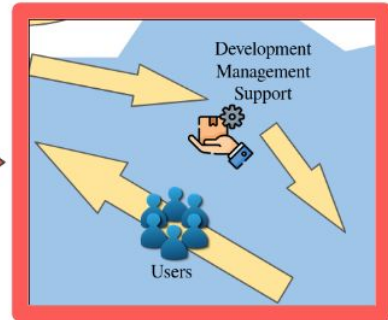

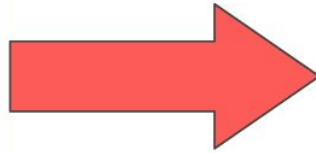

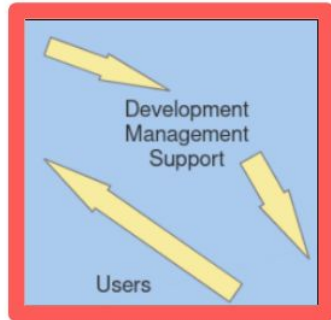

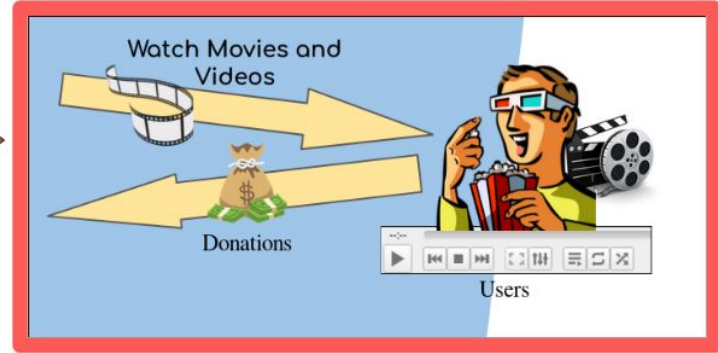

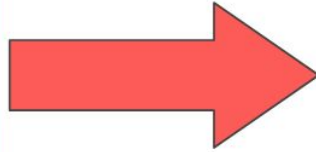

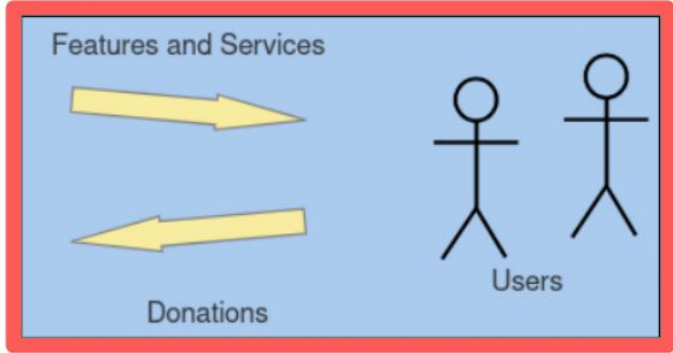

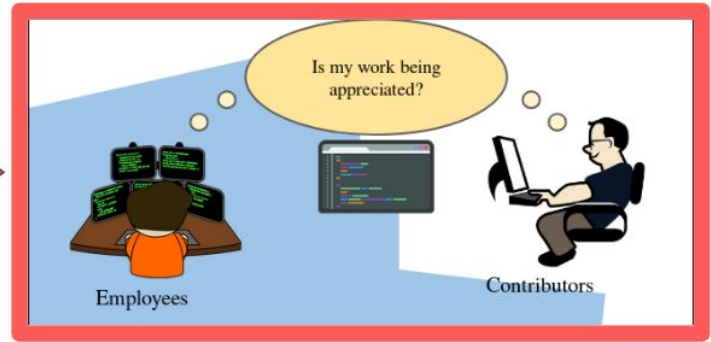

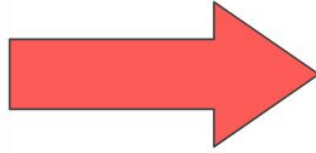

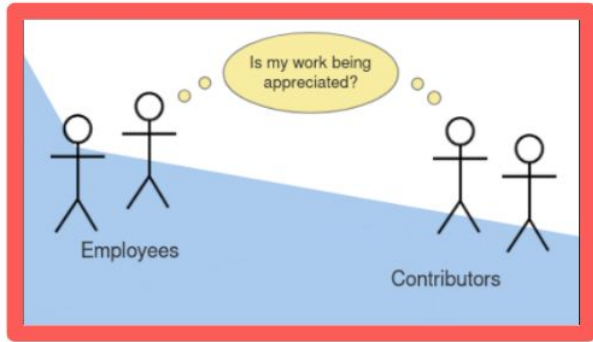

Strengths

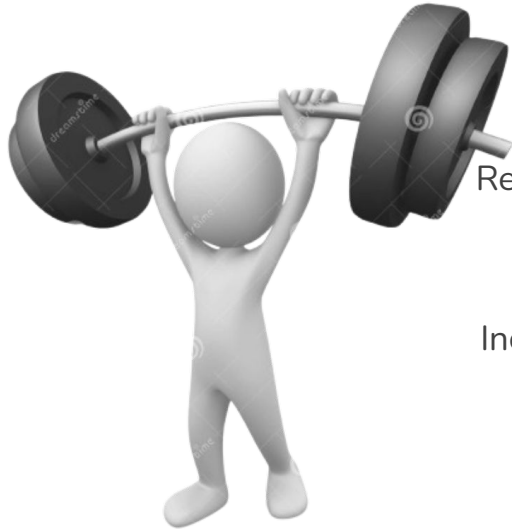

Researching stakeholders

System vision

Incorporation of feedback

Strengths

Researching stakeholders

System vision

Incorporation of feedback

Weaknesses

Time management

Workload management

Proactive engagement

Most Difficult Part

**Admitting when I was confused /
asking for help from the group**

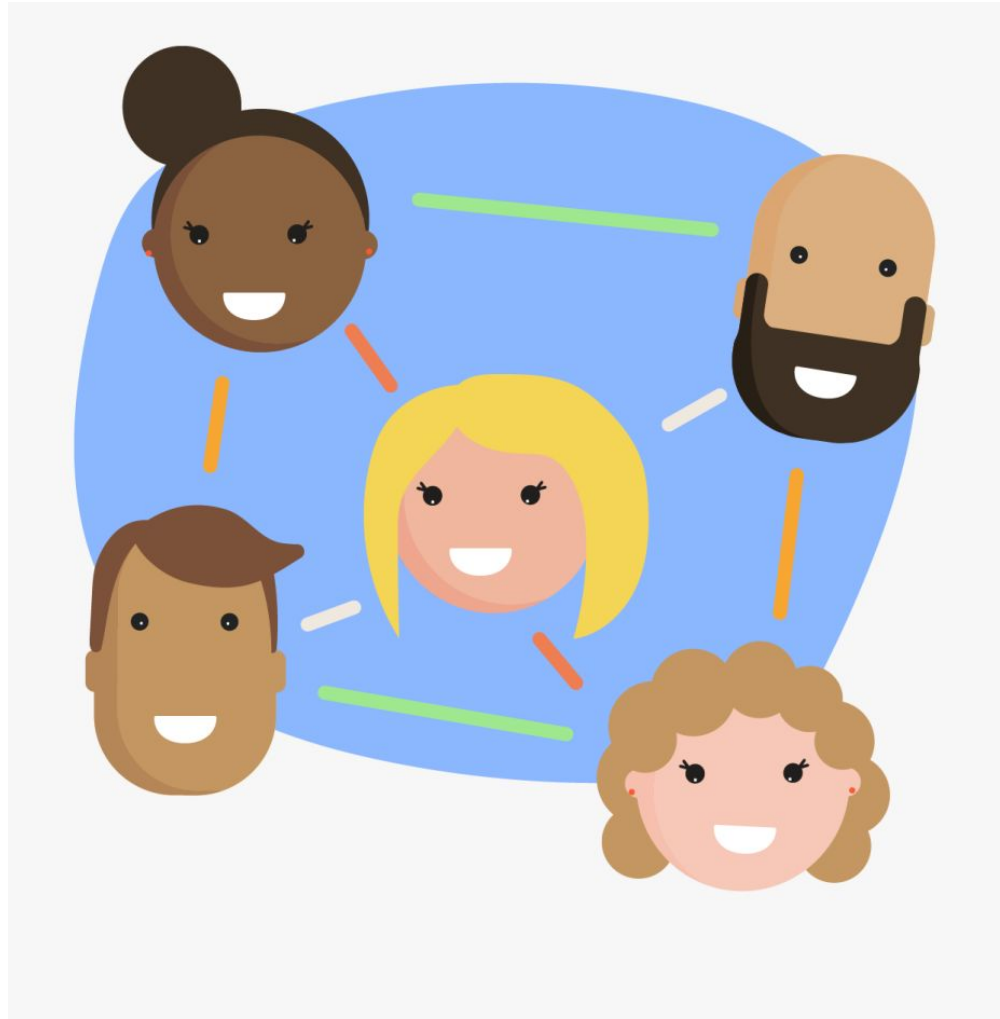

**What I would do
differently**

Communicate

More openly and actively.

Thank You!
